SITUATION SUMMARY

HWY 3 Roadway Damage, Trinity County

- On 3/15/2016 Trinity County Proclaimed a local emergency and activated their EOC to Level 1 due to a washout of 1000' of Highway 3.
- A detour is available between Weaverville and Trinity Center using East Side/Trinity Mountain Road; but trucks and RVs are not allowed due to tight curves. Large vehicles will need to access Trinity Center via Highway 3 from the North.
- Highway 3 over Scotts Pass is open, residents can leave the Coffee Creek and Trinity Center areas via Highway 3 to Yreka for supplies. Currently, the only route to take Coffee Creek and Trinity Center residents in 2 wheel drives to Weaverville is a 140 mile detour north on Highway 3 to Yreka, south on I-5 into Redding, and west on Highway 299.
- Highway 3 is expected to remain closed at the slide until Memorial Day weekend.
- Scotts Mountain Pass and East Side Trinity Mountain Road will be plowed starting tomorrow and throughout the storm.
- There are no requests for assistance at this time as all needs are being met. Caltrans, Trinity, Shasta Counties and contractors are working to alleviate transportation issues.
- Inland Region will continue monitoring for additional impacts from this storm.

Health and Medical

- Basic Life Support EMS is available from the local Fire Department.
- A four wheel drive ambulance, which could meet an ALS ambulance if need be, is at the Slate Creek detour.
- Air Ambulances are available in good weather.

National Weather Service in Eureka is currently providing spot weather forecasts

- Weather is expected to be mild through the end of the week.
- A few sprinkles will be possible late tonight and tomorrow morning, accumulations will be minimal if any.
- Snow levels will likely remain above Scott Mountain Summit.
- Beginning late Saturday a storm system will bring several chances for showers to the area through the first half of next week.
 - Lowering snow levels, accumulations are expected to be light with any showers that do develop and conditions are likely to be cool and dry for the majority of the time

Cal EOC Incident – 2014 Drought

SOC / Inland REOC remains activated in support of 2014 Drought.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

High pressure will keep dry weather across Northern California today. However this will be short lived as the next front will approach the coast tonight. By late tonight a few hundredths of an inch of rain could spread into the rogue valley and the cascades. Showers will continue into Thursday morning as far east as the Klamath basin.

Eureka Weather:

An overall warming and drying trend is expected through the end of the week, with chances for light rain north of Cape Mendocino overnight tonight and over the weekend. Temperatures will likely cool off again late in the weekend and early next week.

Reno Weather:

After drier and warmer conditions through the week, winds will increase Friday with a slight cool down for the start of the weekend. Another colder, spring system is looking more probable for early next week possibly bringing additional snow to the region.

San Francisco Weather:

High pressure will maintain dry weather across the region through the remainder of the work week and through the upcoming weekend. In addition, temperatures will warm today and then remain slightly warmer than normal from Thursday through Saturday before cooling begins on Sunday. A few rain showers are possible early next week as an upper low drops over the state.

Sacramento Weather:

Dry weather with daytime temperatures a few degrees above normal through the remainder of the week. Breezy north winds Friday. The next chance of precipitation will be early next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

High pressure will build over central California into the weekend resulting in dry weather and a warming trend. Unsettled weather returns early next week with the possibility of showers and a cooling trend.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A tight surface pressure difference across the area will bring gusty offshore winds to the area today. Otherwise, high pressure building aloft over the region will bring a general warming trend into the weekend. A trough of low pressure over the Bering sea this morning could bring cooler, cloudier, and showery weather early next week.

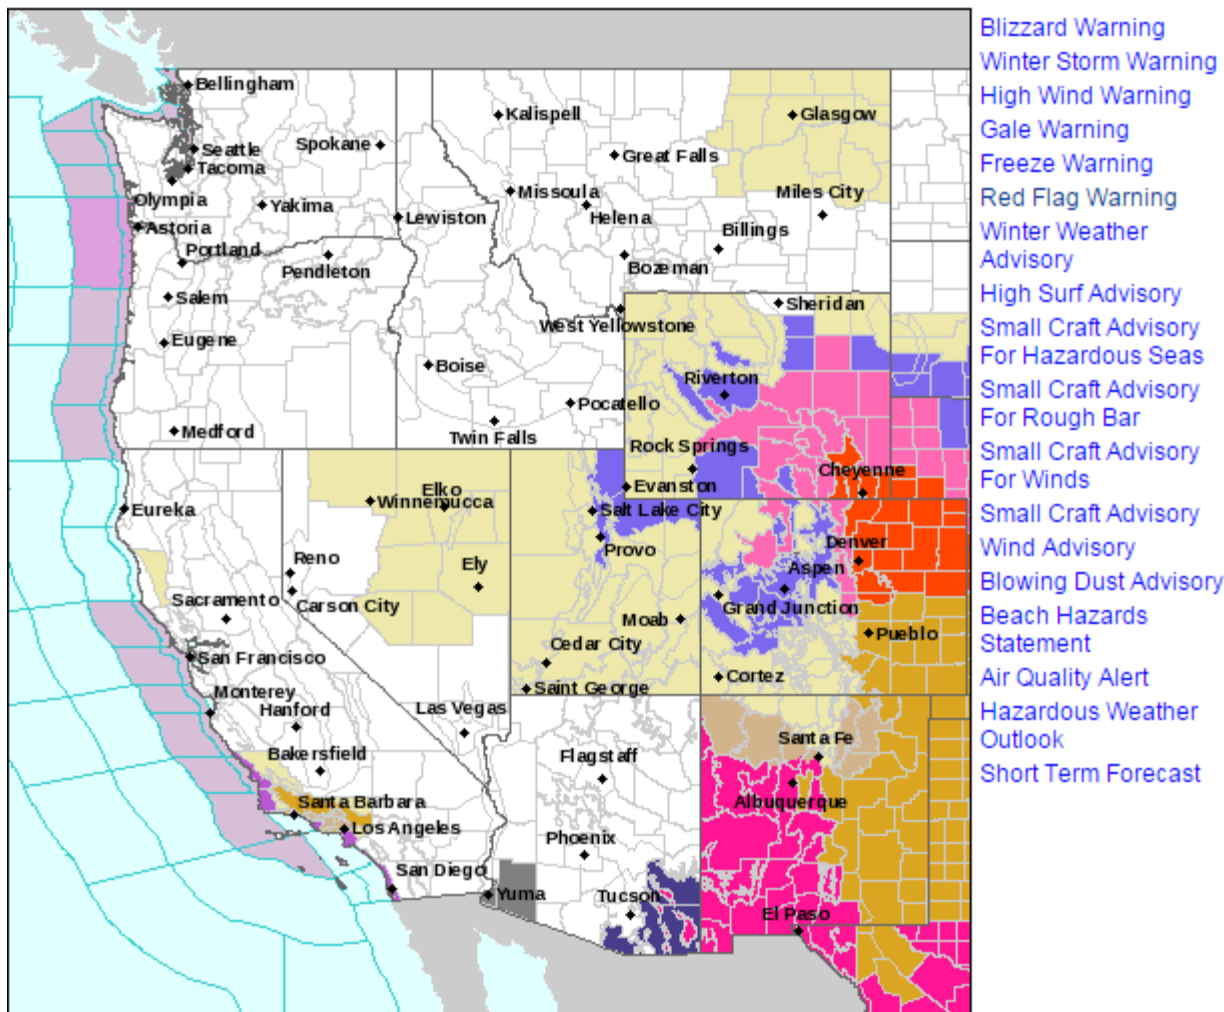

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Locally gusty northeast winds will continue this morning particularly in and below foothills. Fair and warmer weather is expected through the weekend under high pressure aloft. A low pressure system will develop over the west next week. This will bring cooler weather Monday and a chance of showers by Tuesday.

Southeast California Weather:

High pressure builds back into the region resulting in cool but calm weather today with a warming trend through the remainder of the week. A return to windy and cool weather arrives this weekend with unsettled conditions persisting next week.

CAL OES MISSIONS

Closed Cal OES Mission:

- **2016-LAW-22034, 3/22/16, 0715 hrs.**, AFRCC reported a PLB activation at coordinates 39 56.4 N, 122 46.1 W, which plots to Raglan Rich Rd., Red Bluff. The emergency contact, who is the R/O's brother, advised the area is inaccessible due to snow, and that the R/O has suicidal tendencies. AFRCC attempted contact with the R/O without success. Updated coordinates relayed to both Tehama SO Dispatch and their SAR Coordinator. AFRCC offered cell phone forensics assistance, if requested. **Update:** There were several coordinate changes through the morning, with the device moving several miles each time. Tehama SO requested the CHP's fixed wing to fly the area and they located the R/O near his residence. As the area was inaccessible by ground vehicle, a CHP helicopter made contact with the R/O, who requested their assistance. The R/O was evaluated and transported to a local county facility and placed on a 72 hour hold under 5150 W&I. **Mission Closed.**
